

cloudLibrary Installation | Kindle

1. Enabling your Kindle

Fire

Go to the **settings menu** by tapping the settings icon or swiping down from the top of the screen.

Choose Security (on some Fires you will need to choose Device).

Turn on the option allow Apps from Unknown Sources.

You will get a warning message **Click Ok**.

Go back to the **Home screen**.

Kindle HD

Swipe down from the top of the screen. This pulls up the Quick Settings menu.

Tap **More**.

Choose **Settings** then **Device** (on some Fires you will need to go to **Applications**).

Tap on the option to turn on **Allow Installation of Applications from Unknown Sources**.

Go back to the **Home screen**.

2. Download and install cloudLibrary

On your Fire **Open the Silk browser** and navigate to <https://www.yourcloudLibrary.com>

Scroll down the page and tap on the **Fire** icon.

Tap on the red **download button** below that matches your generation of your Fire.

4th generation and up Fires, click “Download: 4th gen and up Fire”

3rd generation Fires, click “Download: 3rd gen Fire”

Tap **Ok** to message.

Tap **open** Download complete.

When asked **“Do you want to install this application?”** select install and then open.

If the app does not open, tap on the **Home** icon and tap on the cloudLibrary™ icon to open the app.

Select your country and state from the dropdown menus.

Select your library and **enter your library card number**. You should only have to manually enter it the first time you use the app.

3 | Installation is complete

Select your library, enter your library card number and pin, and you are ready to use cloudLibrary.

**For full instructions based on your specific device, go to www.yourcloudlibrary.com and select your device under the “Get the App” tab.*
